

# HOLDING RANGE

## VIZU GASTRO WARMER 2 DRAWER

- Additional drawer to double the storage space, whilst still being able to fit underneath tables and grills to save space in the kitchen.
- Can be sold as a stand-alone hot drawer unit or be incorporated into 'Vizu Fast Serv' modules.
- The unit is designed to hold a variety of cooked foods safely in a temperature controlled, humid environment – to be used only to maintain temperature.
- Two digital displays show countdown timer with 90 minute countdown timer and audible alarm to let you know when you should remove the product, as well as an internal temperature read out.
- The unit fits a standard 1/1 150mm deep gastronorm pan, or can also fit 3 x polycarbonate 1/3 pan and drainer.
- Removable water tray for easy cleaning
- Food product pan is removable for easy cleaning
- Easy open and close with large handle
- No fan to fail – unit uses convection to circulate humidity.
