

QUICK SERVICE EXPERT
BY FAST FOOD SYSTEMS

WELCOME

I have always understood that Fast Food System's mission is to provide QSR operators with the tools they need to deliver great tasting, hot, fresh food, every time, time after time. Vizu equipment is designed to make that a reality.

The Vizu Brand has built on five decades of experience making Fast Food Systems a leader in the design, manufacture and installation of high-quality quick service restaurant equipment.

With over 70 items in the Vizu range, Fast Food Systems can truly claim to be the QSR experts. Vizu equipment can be seen everywhere from your local cinema, football clubs, amusement parks and many independent and chain fast-food restaurants. Based in Reading, all Vizu equipment is proudly manufactured in the UK. Our R&D team is always looking for ways to improve the equipment and to expand the Vizu range as the needs of our customers change and evolve.

Our experienced team can assist you with creating an efficient workflow in your kitchen and can even manufacture bespoke equipment to suit your unique requirements. So whether it is chicken, burgers or plant-based you are serving, we have the right equipment for you.

Andrew Withers, Chairman

FRIES RANGE

VIZU MEGA FRIES & MINI FRIES

- Heat lamps from above and beneath the dump area maintain a consistent temperature for the cooked products.
- The front and rear lamps are controlled separately, allowing energy to be conserved when appropriate.
- The dump area is large with a divider to keep a variety of products; including chips, onion rings, potato wedges, etc.
- Interchangeable side glass and new bagging rack (of 2 different sizes), to support different workflow directions.
- Additional bagging rack option at the rear of the dump area gives more storage space during busy periods.
- Wrap and chip bag stored beneath the dump area.
- Salt shaker holder included.

FRIES RANGE

VIZU MEGA FRIES TOPPER

- All the advantages of the Vizu Mega Fries.
- Under unit storage is replaced with Adande freezer unit.
- Designed to improve the flow of food preparation between freezing, frying, and bagging.

VIZU SERVER

- Heat lamps from above and beneath the dump area maintain a consistent temperature for the cooked products, ideal for bagging and holding chips.
- This compact machine is intended to work as a pass through unit on the Fast Serv counter, but it may also be used as a bagging station.

VIZU MINI FRIES COUNTER TOPPER

- Table top version of the Vizu Mini Fries Topper.
- Same features in a smaller package.
- To be used with cooked products only.
- More energy efficient.
- Suitable for left and right work flow direction

VIZU FRYKART

- All stainless steel welded construction.
- Heavy duty castors (two lockable).
- Removable drip tray set in base frame.
- Fry baskets not included.

PASS THROUGH RANGE

VIZU PASS THROUGH

- Designed to fit on a central service counter – loaded from the rear and unloaded from the front.
- The machine maintains its internal temperature and humidity, extending the storage time for cooked meats, breads, and pastries without deterioration.
- The water supplied to the machine can either be fed directly from the mains or gravity fed from the water tank supplied.
- Individual loading and serving doors reduce heat and humidity loss during use.
- Spring-assisted doors seal to the machine when closed and lift when opened.
- Bright, low power lights illuminate the food on the trays, which are angled towards the unloading side of the Pass Through.
- The Pass Throughs are available in either 6, 8 or 12 rack units, to suit lower and higher volume environments.

VIZU PASS THROUGH CABINET

- Single door on front & rear side with rubber seals traps heat and humidity more easily.
- Clear glass doors display cooked products for customers

BREADING RANGE

VIZU MINI MARINADE TUMBLER

- All stainless steel construction.
- Bidirectional tumbling with tumble speed control.
- Digital programmable timer control.
- Adjustable leg supports.
- Ergonomic angled design.
- 1.5 bar vacuum increases marinade absorption for an improved products.
- Reduced footprint for counter tops.
- Easy-to-clean design.

VIZU AUTO BREADER

- For breading a variety of products; including chicken legs, fillets, wings, potato wedges etc.
- Motorised rotary sieve divides and dispenses reusable breading mix into its own container below.
- Timed sieving system.
- Reduced labour.

VIZU MEGA AUTO BREADER

- The largest breading machine available in the Vizu range.
- Suitable for busier operations, with a requirement for large volumes of breaded prepared product.
- The extra large breeding pan ensures the process is as efficient as possible, and maximises the comfort of the operator.
- Designed for ease of disassembly and reassembly, for cleaning and maintenance.
- Motorised rotary sieve divides and dispenses reusable breading mix into its own container below.

VIZU MOBILE LANDING TABLE

- Space saving racking system that holds up to 6 1/1 Gastronorm Pans 65mm Deep.
- Mounted on castors, to aid workflow around the kitchen.

VIZU GASTRO WARMER

- Designed to safely hold and maintain a variety of cooked foods in a humid and temperature controlled environment.
- Two digital displays for countdown time and temperature.
- 90 minute countdown timer with audible alarm.
- Designed to fit a standard 1/1 Gastronorm Pan 150mm Deep (included), or 3 polycarbonate 1/3 pan.

VIZU HOLDING CABINET

- Thermostatically controlled temperature ensures accurate consistent holding.
- Designed to hold and maintain a variety of cooked foods such as chickens, ribs, potatoes etc. in a humidified environment.
- Forced convection ensures an even heating throughout the unit, while minimising condensation.
- Capacity of 6 1/1 Gastronorm Pans 65mm Deep.
- Fully mobile design on castor wheels.

VIZU GASTRO WARMER 3 PAN PASS THROUGH

- Combines the function of the Vizü Pass Through Range with the Vizü Gastro Warmer 3 Pan, allowing products to be loaded from both the front and rear.
- This machine helps to speed up the workflow of the kitchen by providing a highly visible, short hot holding solution for small quantity cooks.
- Having clear containers for food means you can easily see what is being stored.
- The timers above each container means you can accurately track the amount of the time the cooked product is being held.
- The perfect machine to hold a range of items and can be used for breakfast, lunch and dinner products alike.
- Storage solution helps to trap moisture ensuring product is held to a high standard.
- No fan to fail – unit having minimal moving parts ensuring minimal down times.

CLAM GRIDDLE

VIZU CLAM GRIDDLE

- Built with a tough, hard wearing, hard chromed cooking griddle and easy to clean non-stick clam head.
- 10 cooking programs give a choice of cook times and temperatures for a consistent cook every time.
- Each program controls the temperature of both the upper clam head, the lower griddle, and the duration of the cook.
- Once the product is placed on to the griddle, the clam head is pulled closed and the machine is locked shut.
- The Vizu Clam Griddle automatically adjusts the pressure it exerts on the product, allowing the machine to swap quickly and easily between, for example bacon, steaks, chicken fillets or burgers.
- Once the cooking cycle is complete, the Vizu Clam Griddle automatically opens and is ready to be unloaded.
- The clam head is also available as a ribbed platen to give a chargrilled look to the cooked product.
- Cooks products in just 1 to 2 minutes for speed and efficiency.

FAST SERV RANGE

VIZU FAST SERV

- The Fast Serv is a modular system that can be changed and rearranged to suit the customer's needs.
- Uses a combination of 600mm and 300mm wide standard units, with a 600mm or 1200mm deep countertop.
- A rear access panel on the units can be removed to connect relevant machines together; including electrical wiring, waste pipes, and water pipes.
- In island layouts, there is a 100mm wide channel between the front and back row, for wiring and pipelines.
- The Fast Serv can be finished with kick-plates, end panels, and upstands.

Vizu Fast Serv is a unique modular system for creating a rear-service counter in a QSR (Quick Service Restaurant), which is an amalgamation of everything you need to assemble a meal order quickly and efficiently. The modules allow you to pack, prepare and deliver; incorporating packaging materials and storage of condiments, through to holding hot food, drinks and waste disposal.

Fast Serv has been created in 300mm and 600mm wide modules that can be clipped and locked together in any order to suit the customers' bespoke requirements; small enough to fit through a doorway but large enough to create a comprehensive rear-service counter system.

FAST SERV RANGE

VIZU CUP HOLDER UNITS

- 600 Cup Holder Units features horizontal cup tube dispensers, including an optional lid dispenser.

HOT DOG GRILL & WARMER DRAWER

VIZU HOT DOG GRILL

- Thermostatically controlled temperature with digital display.
- Oscillating hot dog grid creates an eye catching display, and evenly heats and extends the holding time for pre-cooked hot dogs without deterioration.
- Designed to stack on top of Warmer Drawers, to reduce the space required and increase work flow.
- Easy-to-clean with removable grills.
- High production unit with minimal staff supervision.
- The HD4 holds twice the capacity and consumes less than twice the power.

VIZU WARMER DRAWER

- Holds hot dog rolls/buns in a warm, humidified, and consistent environment; prolonging the holding time of the product without deterioration.
- Easy-to-access water tray located at the front.
- Designed for and placed underneath the Hot Dog Grills, to reduce footprint and improve work flow.
